Population 1 Notes

- 1, Population 1 includes the date of the week being claimed and the date the week was claimed:
 - A) Column 2(Step 1A), Week Claimed, is the benefit week ending (BWE) date of the week being claimed.
 - B) Column 7 (Step 11), Date Week Claimed, is the date that the state processes the weekly certification.
2. Column 8 (Step 11, Rule 2) is an optional field for the extract file. It is included to ensure that the week claimed was valid based on monetary entitlement. Programmers may be able to populate this field with data to show that the week was countable by including data that shows that the claim was eligible (or pending), that an appeal of an ineligible monetary had been filed and not decided or that the appeal period for an ineligible monetary determination had not expired.

Regardless of whether programmers provide data in Column 8, validators will check this information for sampled cases as part of the data element validation process.
3. Subpopulations 1.7 – 1.9: This information comes from the LADT claimant records. Instructions for including data from these records for populations 1 and 3 can be found in the LADT Information section of Appendix B, Technical Guidance.
4. Column 10 (Step 11, Rule 3), WBA: Use the Weekly Benefits Allowance (WBA) that is in effect during the week claimed for this population.
